High grade expanded PTFE graphited yarn packing in interlock braid

- A superb choice of rotary as well as static equipment packing needs
- Made from expanded PTFE graphite yarns having excellent chemical resistance and heat dissipation properties
- The packing is proven over a wide range of applications including feed water, harsh chemicals, caustics, oils, mild slurries etc
- Excellent dimensional stability
- Does not burn on start-up, low co-efficient of friction

*Available in rope and ring form*

<b>Service Media and Conditions</b>	Bleach washer, caustics, non-abrasive liquor, DM water, condensate, acids, hypo, boiler feed water, fuel-lube oil, acid and alkali regeneration
<b>Temperature</b>	-200°C to 280°C
<b>Pressure</b>	250 bar (static), 30 bar (rotary), 150 bar (reciprocating)
<b>Shaft Speed</b>	22 m/sec (rotary), 3 m/sec (reciprocating)
<b>pH</b>	0 to 14
<b>Applications</b>	Pumps, agitators, mixers, valves, washers
