Pacmaan[®] Pacmaan[®] NA 730FG

Synthetic fibre interlock braided packing impregnated with PTFE and break-in lubricant

- A general purpose packing with good chemical resistance and high tensile strength
- Thorough impregnation of PTFE provides trouble free start-up and low friction operation
- A high density packing good for crystallising media
- A filament core provides mechanical strength and dimensional stability
- Widely used for knife gate valves
- Food Grade certified as per Commission Regulation (EU) No 10/2011 of 14

Preformed rings available

Service Media and Conditions	Water, chilled water, cooling water, solvent, mild abrasives, brine, salt water, mild acid and alkali, foodstuff etc
Temperature	-100°C to 260°C
Pressure	100 bar (static), 20 bar (rotary), 80 bar (reciprocating)
Shaft Speed	12 m/sec (rotary)
pH	2 to 12
Applications	Pumps and valves, knife gate valves
